SALON EVOLUTION

INNOVATIVE DESIGNS  
FOR SALON & SPA

# piibbs®

## PIBBS INDUSTRIES IS ONE OF THE WORLD'S LEADING MANUFACTURERS OF SALON, BEAUTY AND SPA EQUIPMENT

The Pibbs Group put down its roots in the 1950's as hairstyling and fashion became more demanding. The hairstylist had greater needs, and the Pibbs family was among those stylists. Hairdressing gave enjoyment, work and life to the Pibbs Group. After opening a number of salons, an idea began to grow.

## Never Lose Hot Water Again!

One of the worst things that can happen to a busy salon is to lose hot water at one or all of your shampoo units while servicing clients. The Pibbs Water Heat Boosters were developed to address this common but often neglected issue. The Pibbs Water Heat Booster is a smart electric tankless water heater. The Pibbs Water Heat Boosters reliably sense the inlet water temperature. If the incoming water temperature is less than 110°F, the Pibbs water heater knows to raise the temperature. When the water from the central location reaches the desired temperature, the Pibbs Water Heat Booster turns off, saving energy and reducing water waste. So, the only time the Pibbs Water Heat Booster is running is when it needs to work. That's smart.

- PWH-10 is preset at 110
- PWH12 temperature adjusted
- With the Pibbs Water Heat Booster, your water temperature is consistent without the frustration of fluctuating water temperatures.
- No waiting or wasting water – all the time waiting for hot water to arrive you are paying for the water running down the drain.
- The Pibbs Water Heat Booster, hot water when you need it.
- The best reliable beauty salon electric water heat booster
- No more running out of hot water, no more cold-water shampoos, no more adjusting the water temperature or water flow. Reliable and consistent hot water, when you need it most!
